THE REMOVAL OF THE STATE PRISON.

The bill to remove the State Prison to Reno, whose passage was recommended on Friday by the Committee of the Whole, is likely to pass in both Houses and to become a law. It provides for the immediate removal of the prison to Reno and for an appropriation of \$80,000 to carry out that object. A large sum of money has already been expended here in the construction of walls for the prison, which expenditure will be a total loss to the State should the removal not be accomplished. In its present situation, the institution is a costly burden on the tax-payers; whereas here it would be in great part, and eventually perhaps entirely, self-sustaining. There is unlimited free water power here for manufacturing, and thus the labor of the convicts can be utilized without any expense for fuel. Here is also a good market for the products of the prison, and for the labor of the convicts.

Assemblyman Ross Lewers, elected to represent the interests of Washoe county, is opposing the bill, on the ground that Washoe county does not want the prison, and because of some jealousy of one of the other members of the Washoe delegation. This is certainly extraordinary conduct in a representative. While the rest of our delegation are working hard for the success of the bill, he is kicking against it like a mule. What reason has he to think that Washoe county does not want the State Prison, and that its removal to Reno would not be a good thing for the tax-payers? As Mr. Lewers is a man who refuses to take any Republican newspaper, very much intelligence need not be expected of him, but he should have more sense than to oppose the interests of this county because of some petty personal ill-feeling. Let our delegation pull together at the capitol, and fight, if need be, when they return.

Perhaps Mr. Lewers is representing the interests of Ormsby in this matter, just as he did all he could for Ormsby in the organization of the Legislature. It is well known that Mr. Lewers is a Carson man in feeling.

THOMAS PAINE.

Thomas Paine was born just 144 years ago to-day. He did more than any other man to incite the American colonies to resist the oppressions of Great Britain and to begin the struggle for independence. Strong evidence has been adduced of late years to show that Paine, and not Jefferson, was the author of the famous Declaration. Paine was a man of surpassing intellectual force and ability, and a devoted advocate of liberty and the rights of man. Paine took a part in the French revolution, and was one of the few Americans ever made citizens of France. His "Age of Reason" brought upon him a storm of reproach and slander from the clergy, but whatever may be thought of the work, there is no doubt that it was written with an honest intention to do good. Many of its passages once considered to be shockingly impious, are to-day quietly acquiesced in by liberal clergymen. Years will bring more and more respect for the memory of Thomas Paine.

A GOOD BILL.

Senator Hobart's bill to reduce salaries passed in the Senate yesterday, and will no doubt pass in the House. It makes the following reduction in salaries: Supreme Judge from \$7,000 to \$6,000; State officers from \$3,600 to \$3,000; Deputy State officers from \$3,000 to \$2,000; State Printer from \$3,400 to \$1,800; Warden State Prison from \$3,000 to \$2,000; Supt. Orphans' Home from \$3,000 to \$2,000; Supt. Public Institution from \$2,400 to \$2,000. It dispenses with salaried clerks of State Boards by making the Deputy State officers ex-officio clerks of said Boards without pay, thus effecting a saving of about \$1,600 a year.

NEVADA'S POPULATION—COMPLETE OFFICIAL RETURNS OF THE CENSUS.

CENSUS OFFICE, WASHINGTON, D. C., January 15, 1881.

The following statement exhibits the results of the first count of population according to the schedules returned to the Census Office by the Enumerators of the several districts concerned. The statement of the population in relation to any township, town, city, or county is still subject to possible corrections by reason of the discovery of omissions or duplication of names in the lists of inhabitants returned. "Indians not taxed," i. e., Indians in tribal relations, under the care of the Government, are not included.

* Including, in the State, 5,430 Chinese, 3 Japanese, and 2,803 Indians and Half-breeds; in Churchill county, 33 Chinese; in Douglas county, 159 Chinese and 1 Half-breed Indian; in Elko county 612 Chinese and 373 Indians and Half-breeds; in Esmeralda county, 242 Chinese and 303 Indians; in Eureka county, 633 Chinese and 288 Indians and Half-breeds; in Humboldt county, 539 Chinese and 211 Indians and Half-breeds; in Lander county, 386 Chinese and 224 Indians; in Lincoln county, 100 Chinese and 416 Indians and Half-breeds; in Lyon county, 390 Chinese and 5 Indians; in Nye county, 66 Chinese and 50 Indians and Half-breeds; in Ormsby county, 984 Chinese and 127 Indians; in Roop county, 5 Chinese and 81 Indians; in Storey county, 639 Chinese, 2 Japanese, and 114 Indians; in Washoe county, 536 Chinese, 1 Japanese, and 831 Indians; in White Pine county 107 Chinese and 289 Indians and Half-breeds.

A SCARCITY OF WOMEN.

The returns of the late census show that Washoe county has, including 536 Chinese and 331 Indians, a total population of 5,664, of whom 3,678 are males and 1,986 females. Supposing that the Chinese and Indians enumerated are all males, there would be left a white population of 2,811 males to 1,986 females, or as apparent majority of males over females of 825. The real majority of white males over white females is probably nearer 1,000, as a considerable number of the Indians, and a few of the Chinese, enumerated, must be females. It is evident, then, that there is a deficiency of at least 825 females in Washoe county, if the males are all to marry. And yet there does not appear to be any haste among the men to secure the disengaged females.

A greater disproportion in numbers between the sexes is noticeable in the returns from the remainder of the State. The male population of Nevada is 42,013, and the female 20,252; the males outnumbering the females two to one. This state of things seems to prevail in all mining regions. The unmarried ladies, in regions which God has superabundantly supplied with females, should not be deluded by these facts and figures into a husband-hunting expedition to this sage-brush region. The men betray no anxiety to get married. The most of the unmarried men, unhappily, are too much devoted to their own selfish pleasures to be desirous of marriage, and few of them, it is to be feared, would make good sailors on the sea of matrimony.

EDITORIAL NOTES.

The following U. S. Senators have been elected: N. Y., Thos. C. Platt (R); Maine Eugene Hale (R); Connecticut, J. R. Hawley (R); Delaware, Thomas F. Bayard (D); Michigan, Omar D. Conger (R); Indiana, Benjamin Harrison (R); Ohio, John Sherman (R); Missouri, Francis M. Cockrell (D); Minnesota, S. J. B. McMillan (R); Rhode Island, A. Burside (R); California, J. F. Miller (R); Vermont, G. F. Edmunds (R); Maryland, A. P. Gorman (D); Mississippi, J. Z. George (D); Nevada, J. G. Fair (D); Virginia, Wm. Mahone (I); Florida, C. W. Jones (D); Massachusetts, Henry L. Dawes (R).

Nevada county, California, has lost patience with road agents, and its Assemblyman Long has introduced a bill in the State Legislature subjecting persons twice convicted of highway robbery to capital punishment. Public sentiment on this coast seems to be undergoing a reaction in favor of extreme punishment for criminals. So many murderers and robbers go unpunished that the people are getting desperate, and threaten to take the law into their own hands where the courts and the officers fail.

The Enterprise candidly remarks that "stocks are likely to remain much as at present until April or May. It will be two or three months yet before we can look for anything from the

main and heavy work in progress at the north end, middle mines and Yellow Jacket and Belcher series." The Enterprise enjoys a deservedly high reputation for the fairness of its mining reports, written, as everybody knows, by Dan De Quille, a man absolutely incorruptible.

The Atlantic for March will contain a paper of singular value on the History of a Great Monopoly (The Standard Oil Company). Mr. Grant Allen, on the Genesis of Genius, replies to Dr. James; there will be interesting installments of Miss Phelps' and Mr. James' stories, and a great variety of sketches, essays, etc.

The N. Y. Tribune notes an increasing demand for California champagne in that city. California champagne has had a good demand in Nevada.

The Weekly GAZETTE and the Congressional Record will be supplied together for one year for \$2 50, the price of the GAZETTE alone.

Senator Powning's Assembly bill was signed by the Governor yesterday. It effects a great saving of expense to the State.

A Famous Glass-Eater.

The feat of eating glass, or at least breaking it with the teeth, is not confined to dervishes or conjurers by profession. Jan Huygen van Linschoten makes the following statement concerning Sir Richard Grenville, the hero of Revenge: "He was of so hard a complexion, that as he continued among the Spanish captains while they were at dinner or supper with him, he would carouse three or four glasses of wine, and in a bravely take the glasses between his teeth and crush them in pieces and swallow them down, so that oftentimes the blood ran out of his mouth without any harm at all unto him; and this was told me by divers credible persons that had many times stood and beheld him."—Pall Mall Gazette.

A lot of Indians encamped below the roundhouse of the Virginia and Truckee Railroad Company, Virginia City, have of late been indulging in such drunken orgies that the people living in that neighborhood are complaining of the nuisance.

Lumbermen are taking advantage of the snow in the mountains to get out logs. They are hauling at Truckee, Boca and Dog valley.

The Bullion and the Wild Goose mining companies of Paradise, Nevada, are at loggerheads. The Bullion is said to be running a tunnel to Wild Goose ground.

The little son of Mr. and Mrs. Buchanan, of Bodie, fell into a tub of hot water and was so severely scalded that he died in a short time.

A Boca dog with a singular fondness for fruit, was given some wild cherries and got drunk in consequence. Now he refuses anything with liquor in it.

The Republican says: The ice houses at Camp 20 have all been filled with the finest kind of ice, from one and a half to twelve inches in thickness. All lovers of a first-class Pitt Cigar come to John P. Myers' Drug Store, we do not want of postoffice.

TRUCKEE TROUT.

An Old Angler's Views on the Fishery Laws—When and Where the Fish Spawn.

D. C. Campbell has had an experience of many years in angling for Truckee trout. He used to live at Clark's station before the railroad was built, and knows the river thoroughly. He says it would be a mistake to make our fish law correspond with that of California. The California close season commences in November and ends April 1. If our close season were made the same, it would put a stop to fishing at the only time when fish can be caught in the river. Mr. Campbell would have our close season commence at the same time California's does, viz., Nov. 1; and have it close Feb. 15. He is satisfied from close observation of the habits of Truckee trout, that most of the fish get through spawning between those dates. He further states his views on the fishery question substantially as follows: The trout usually begin going up from the lake into the river about Nov. 1. The largest trout spawn near the lake. The smaller fish, the farther up stream they go to spawn. Three-quarters of the fish now deposit their eggs between Pyramid lake and Clark's station. There are spawning beds all along the river, in nearly every mile of its length. One of the best of them used to be between the two bridges at Reno, but that has been ruined for propagating purposes by refuse from the gas works. A few fish spawn as early as October. The fish ascend the river in successive schools, each school spawning higher up the river than its predecessors. It is probable that the fish do not run up as high as Lake Tahoe to spawn. Indeed, it is now impossible for them to get up so far, owing to the dams in the river. The Indians say that no trout can get above Brickett's dam at Truckee. The greatest injury to the fishery of the Truckee is done by Indians who put in dams every winter at the mouth of the river to prevent the fish from running up. Two dams built by Indians have been torn out this winter by white fishermen.

Mr. Ferguson, of Boca, expresses different views of the Truckee fishery. He says that a great many fish run up the river past Boca, and that they spawn all along the river as far up as Truckee. The run of the red, or river, trout commences about March 1 and lasts until about June 15. The silver trout appear at Boca about June 25 and run until July 15. The female fish caught going up are always full of mature ova, showing that they have come up to spawn. After spawning they go down stream immediately. The Indians have done little spearing of late years. They now mostly fish with hook and line.

[It appears plain, from all the testimony that can be gathered, that any law which makes the close season for fish include the spawning season virtually puts a stop to fishing in the Truckee river. The fish are never in the river except when they are there to spawn. It may be that there is no need of a close season for Truckee river trout. Probably the capture of all the fish that can be legitimately taken with hook and line will not effect the future supply. Pyramid lake is an immense natural reservoir always full of trout, and the number that enter the river to spawn are few compared with those which remain in the lake. It would seem to be advisable, if a close season is to be maintained, to make a special law for the Truckee river. Let, say, the close season for the section of the river between Pyramid lake and Clark's be from Oct. 1 to Jan. 1; and for the section between Clark's and the State line from Jan. 1 to April 1. This plan would give both fish and fisherman a fair show all along the river.]—ED. GAZETTE.

Another Stage Robbery.

The Wheatland stage was stopped at 8 o'clock Thursday evening, two miles from Smartsville, by two masked men armed with shotguns and knives. The passengers were ordered to get out of the stage. Wells, Fargo & Co.'s box being locked in the stage, it was broken open, but nothing found. The passengers were relieved of \$43.

Rain and Snow.

The rain which has been falling for the last twenty-four hours has been the heaviest experienced here for two years. It was raining hard in California all day yesterday, and snowing on the mountains. Snow has apparently been constantly falling on the eastern slope of the Sierra to-day.

AN ACT

To Prohibit the Use of Fire-Arms in Public Places.

The following bill was introduced in the Assembly by Mr. Bradshaw on the 10th of Jan., and passed both Houses by a unanimous vote:

Section 1. Any person in this State, whether under the influence of liquor or otherwise, who shall, except in necessary self-defense, maliciously, wantonly or negligently discharge, or cause to be discharged, any pistol, gun or other kind of fire-arm, in or upon any public street or thoroughfare, or in any theater, hall, store, hotel, saloon, or any other place of public resort, shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be punished by imprisonment in the County Jail for a term not less than two nor more than six months, or by a fine not less than one hundred dollars nor more than five hundred dollars, or by both such fine and imprisonment; provided, that no Sheriff, Deputy Sheriff, Marshal, Constable, Deputy Constable, or other peace officer, shall be held to answer under the provisions of this Act for discharging firearms in the lawful performance of his or their duty.

Sec. 2. It shall be the duty of all civil, military and peace officers to be vigilant in carrying these provisions into full force and effect, and any Sheriff, Deputy Sheriff, Marshal, Constable or Deputy Constable who shall neglect his duty in the due arrest of any offender, under this Act, shall be deemed guilty of a violation of his or their official oath, and upon conviction shall be punished by a fine not less than one hundred dollars nor more than one thousand dollars, and by imprisonment in the State Prison not less than six months nor more than five years.

Sec. 3. All other Acts or parts of Acts in conflict with this Act are hereby repealed.

"Mazepa" Last Evening—"The Soldier's Bride" and "Dick Turpin" To-night.

The rain and mud last evening probably kept many away from the theater. Nevertheless, "Mazepa" was played to a fair audience. Miss Buckingham fully realized the expectations which had been formed of her from the flattering notices in the Virginia and Carson papers. Her handsome and graceful figure was displayed to the best advantage in the role of "Mazepa." She appeared in a variety of charming costumes, yet never seemed over-dressed. Her acting was good and free from any reproach of immaturity. The best support she received was from her trained horse "Melville," a beautiful gray, whose performance was admirable. His dash over the mountains (erected by Upton for the occasion) with Mazepa in a short white tunic, strapped upon his back, was the sensation of the evening. The rest of the company sustained their parts creditably. Jimmy Stevens looked every inch a Tartar as he paraded in the ranks of the army. Miss Kittie Baker, the soprano, is a lively little chatterer, and gained a recall. Some difficulty was met with in shifting the scenes, owing to the changes made for the runway of the horse. Miss Buckingham gracefully apologized for this at the close of the play, and gave an assurance that all would go smoothly this evening. "Mazepa" was repeated this afternoon, it having been found impracticable to put "Green Bushes" on the stage of the Nevada Theater. This evening "The Soldier's Bride" will be presented, with Miss Murielle as leading lady; to be followed by "Dick Turpin," in which Miss Buckingham will sustain the part of the bold highwayman, introducing her gallant gray in the famous "Ride to York" scene.

The Advantages Spanish Springs Valley Offers to Settlers.

People who are looking for land would do well to spend a day in Spanish Springs valley. It is less than an hour's ride to the north-east of Reno, and there are good roads all over it and around it. There are four or five thousand acres of land lying idle that can be had at or near government price. Some of it can be taken up as desert land. It has a nice, warm soil, free from rocks and mostly from alkali also. There is one bed of alkali, but the place is so plainly marked that no one could be deceived. The whole valley slopes to the south, and gets the sun all day long. There is much less frost than lower down towards the river. The Orr ditch runs through the center of the valley, and will next summer have water for a thousand acres of land, at an annual rent of four dollars an inch per acre. The half-dozen farmers who have already settled there have got their land nicely improved, and have raised fine crops of potatoes, wheat, etc. Alfalfa does well.

BY TELEGRAPH.

The British Repulsed at the Cape.

LONDON, Jan. 28.

A dispatch from Durban gives the following account of the engagement with the Boers: General Colley's advance guard, consisting of a portion of the Fifty-eighth Regiment and a force of horsemen, attacked the Boers' position. The attack was at first partially successful, but subsequently the Boers were strongly reinforced and repulsed the British with heavy loss, the Boers suffering severely. Both sides maintain their former positions. As to the reinforcements which Sir George Colley must now await, the infantry portion of the troops which arrived at Durban by the Ephraim last Thursday are now on their way to Pietermaritzburg by railroad; but they then have 200 miles to march before they can join General Colley. The horses to mount the hussars who arrived at the same time are still on the way from Cape Town.

The News at the Bay.

SAN FRANCISCO, Jan. 28.

In the Killoch case, the Court overruled all the objections of the defense except the one, which is now on argument.

A pretty strong south-easter has prevailed all day, with a liberal rainfall.

John Cliff, an Englishman, aged twenty-nine, committed suicide today by cutting his throat with a razor. He is said to have been insane on religious subjects.

William Jennings, a lodging-house keeper at 503 Broadway, called his bedmaker, name unknown, a liar this morning, whereupon the bedmaker shot Mr. Jennings in the jaw. The wound is probably not fatal.

Two more jurors obtained in the Wheeler case—four out of some 400 jurors examined.

Railroad Commissioner Beerstecher has so far recovered from the wound inflicted by Antone Fischer as to be able to attend to business once more.

JOTTINGS.

—No Reform Club this evening.

—Reno will soon have a first-class book bindery.

—Chinese New Year commenced to-day. Hence the racket in Chinatown.

—There will be a called communication of Reno Lodge, F. & A. M., to-night.

—John Sunderland has just opened up a big lot of boots and shoes from the East.

—Owing to the bad weather the Reform Club meeting will be postponed for one week.

—The rascals who are selling whiskey to Indians appear to have forgotten that there is a tar bucket and a hereafter.

—"Mazepa," or the wild steed of Honey Lake" will be enacted at the Theatre Comique to-night.

—The Chinese laundrymen have been making presents of silk handkerchiefs, etc., to their patrons to-day.

—The clothes worn by the "United States Army" in the theatre last evening were not purchased at the White House.

—There was sleighing on the Comstock yesterday afternoon, while the rain was pouring down into the muddy streets of Reno.

—There are drunken Indians, especially squaws, about town every night. It is to be hoped that the law will deal with the wretches who sell them whiskey, and not the Tar Brigade.

—Joseph Brotherton still insists that there is a skunk killing fish in the reservoir, Pete Evans to the contrary, notwithstanding. Let Brotherton catch the skunk, and take it to the Journal office, thus settling the dispute.

Which Shall It Be.

The School Trustees of District No. 10 have only sufficient money to run the schools until March 1. The reasons are, 1st. They have been forced to employ three more teachers than ever before. 2nd. It takes more fuel to heat the new school house. 3d. The janitor's fees are larger. They want to know whether they shall levy a tax or close the schools. An election will be held on February 23d to vote on the proposition.

NOTICE.

Notice is hereby given to the qualified voters of Reno School District No. 10 that there will be an election held, Wednesday, February 23, 1891, at the old school house, between the hours of 12 M. and 4 P. M. Said election is called to submit to the qualified voters of said District the question whether a tax shall be levied for the purpose of continuing the schools of said District for the term of four months longer, there being no more money in the fund belonging to said District than will run the schools during the month of February. The amount proposed to be raised is \$3,500, including the expenses of an election, etc.

How the Foreman Used Up.

From the Monetary Times.

To make shoe pegs enough for American use consumes annually 100,000 cords of timber, and to make our lumber matches, 300,000 cubic feet of the best pine is required every year. Lasts and boot trees take 500,000 cords of birch, beech and maple, and the handles of tools 500,000 more. The making of our bricks consumes 2,000,000 cords of wood, or what would cover with forest about 50,000 acres of land. Telegraph poles already put up represent 800,000 trees, and their annual repair consumes 800,000 more. The ties of our railroads consume annually thirty years' growth of 75,000 acres, and to fence all our railroads would cost \$2,500,000, with a yearly expenditure of \$15,000,000 for repairs.

Boston Ballots.

Five hundred pounds of condensed citizenship have been sold in Boston as junk. That is the weight of the ballots cast in that city last November. The law requires that they shall be destroyed without having been examined by anybody except properly authorized committees or other bodies, and that is done by selling them to paper mills out of the State, where they are sent in sealed bags, which are not opened until their contents are to be ground up.

Notice to Lienholders.

IN THE DISTRICT COURT OF THE Second Judicial District of the State of Nevada, in and for the County of Washoe, Felix Mowbray, Plaintiff, vs. PIERRE HUBERT, Sr., Defendant.

Notice is hereby given, that the above named Plaintiff has commenced an action in the above named Court against the Defendant as named to enforce a lien held and owned by plaintiff against defendants and the following described property, to wit: Certain mining claims situated in Steamboat Springs, Washoe County, State of Nevada, known as the mining claims of the Nevada Quicksilver Mining Company, each of said claims being one-half in length and 400 feet in width. Said lien is claimed and this notice is given under the provisions of an Act of the Legislature of the State of Nevada, entitled "An Act to secure liens to mechanics and others, and to repeal all other acts in relation thereto." Approved March 2, 1875.

All persons having or claiming liens on said property are hereby notified to be and appear before said District Court at the Court House at Reno, Washoe County, Nevada, on Friday, the 5th day of February, A. D. 1881 at 10 o'clock A. M. on said day, then and there to make due proof of their liens.

FELIX MOWBRAY, Plaintiff. Reno, January 10, 1881, Feb 5

Summons.

IN THE DISTRICT COURT OF THE Second Judicial District of Nevada, in and for the County of Washoe, The State of Nevada, sends to Mary Jane Hall, Greeting: You are hereby required to appear in an action commenced against you as defendant by S. C. Hall, as plaintiff, in the district court of the Second Judicial District, in and for the County of Washoe, State of Nevada, and answer the complaint therein within ten days after the service on you of this Summons (exclusive of the day of service), is served in said county, or twenty days if served out of said county, but within said district, and in all other cases forty days; or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to obtain a judgment and decree of divorce against the defendant and in favor of the plaintiff. The complaint alleges that the plaintiff and defendant were married at Hooksett, in the State of New Hampshire, A. D. 1853, and lived and cohabited together until on or about the 22nd day of August, A. D. 1872. That plaintiff was a true and faithful husband. That on the 25th day of August, A. D. 1872, at Reno, Nevada, defendant left plaintiff's bed and board, and has ever since said time abandoned and refused to cohabit with plaintiff, all of which will more fully appear from the Complaint which is on file in the office of the clerk of said court at Reno, in said county. And you are further notified that if you fail to appear and answer said complaint, the said plaintiff will apply to the court for the relief demanded.

In testimony whereof, I, MARK F. KIRK, Judge of said court, do hereunto set my hand and affixed the seal of said court, this 13th day of January, A. D. 1881.

MARK F. KIRK, Judge of said court, at the Court House, in said district court of the Second Judicial District of Nevada, in and for Washoe County.

Pursuant to an order of the Hon. Sam'l. D. King, Judge of the said District Court, notice is hereby given to all the Creditors of the said insolvent, D. McLean, to be and appear before the said Judge, in open court, at the Court House of said court, at the Court House, in said county, on the 9th day of February, A. D. 1881, at 10 o'clock A. M., of that day, then and there to show cause, if any they have, why the prayer of said insolvent should not be granted, and an assignment of his estate be made, and he be discharged from his debts and liabilities, in pursuance of the provisions of said statute in such case made and provided; and in the meantime all proceedings against said insolvent be stayed.

I, D. McLean, my hand and the seal of said Court, this 7 day of January, A. D. 1881.

R. S. OSBURN, Clerk.

Summons.
